About the Brewery

2 Way Brewing Company is a micro craft brewery and bar located in Beacon, NY and servicing Newburgh, NY. Opened September, 2014, 2 Way Brewing produces the highest quality handmade beers in the Hudson Valley.

The name was inspired by its location on the “two way” river. The river, which is technically an estuary, was called the Muhheakantuck, or “river that flows both ways” by the Lenape tribe who inhabited the lower Hudson River Valley when the Europeans arrived. Originally from Newburgh New York on the banks of the Hudson, founder Michael O’Herron discovered his passion for brewing while working at Avery Brewing Company in Boulder Colorado. Drawn back home by the landscape and communities in the valley, 2 Way is built on the idea that the banks of the Hudson River are the best place in the world to brew beer.

At 2 Way Brewing Company we believe that the Hudson Valley has everything required to produce beers as unique as any the world has to offer. A climate and farmland perfect for hop production, and world famous water are just the tip of the iceberg. It is our goal to use these unparalleled resources to produce unique local beers at a brewery where anyone and everyone can come relax, hang out, and participate in the craft beer experience. Good beer with good people in a good place. That’s the 2 Way way.

About the Event

The Mid-Hudson Section of the American Chemical Society is pleased to invite you to 2-Way Brewing Company for a science/chemistry-themed trivia night! Come out and meet local chemists while participating in a Jeopardy-style game of trivia while enjoying one of the local craft beers or ciders brewed on-site by the 2-Way Brewing Company Brewmaster, Mike O’Herron. We invite you to socialize and network with fellow chemists from the area and have a blast participating in some friendly competition! All are welcome!
